

5 February 1973

MEMORANDUM FOR: Chief, Agency Archives

25X1 SUBJECT:

Sully:

25X1 For the record, the referenced  has been declassified. Please make the appropriate notations in your records to reflect this action. The official date of declassification is 5 February 1973.

25X1 On the same subject, inasmuch as the referenced  is currently classed as a "working paper," should the document be retained as part of our archival collection? If our intent is to maintain an archives consisting of the key document -- the cream of the crop -- relative to the activities of this Agency, then I think that this document could be properly characterized as failing to meet the definition and can be removed from the permanent collection. I would appreciate your thoughts on this.

You will recall, Sully, that I have previously requested a form notation which can be used for the purpose of advising you and Chuck of the declassification actions on documents held in your respective collections. Could you please come up with such a form in the next two weeks or so.

25X1

Special Assistant for Information Control
